Achievements/Tasks

- Accomplishments - As an undergraduate in IT, I've maintained top academic performance, completed the AAT program, and am progressing through the CA designation, highlighting my commitment to technology and finance. These accomplishments drive my passion and motivate me to excel in academics.
- Responsibility - As a responsible student at Rajarata University, I've taken on academic and leadership roles, including serving as a class representative and organizing IT and finance-related events. This engagement has honed my leadership and organizational skills, fostering a strong sense of responsibility to the university community. Concurrently, my pursuit of the Chartered Accountant (CA) designation underscores my commitment to advancing my expertise in the finance domain.
- Task - As an undergraduate IT student, I've actively participated in coding projects, researched emerging IT trends, and joined relevant clubs to stay current in the industry. Concurrently pursuing the CA designation, I've broadened my practical skills, preparing me for success in the dynamic fields of technology and finance.

Programming: Proficient in languages such as Java, Python, and C++, with experience in software development and coding for diverse applications. Web Development: Skilled in front-end and back-end web technologies, including HTML, CSS, JavaScript, and frameworks. Database Management: Competent in SQL and database design, with the ability to manage and optimize data storage systems.

## GROUP PROJECTS

Automated House Planning and Visualization for Real Estate (10/2023 - Present)

- Our project aims to create a web application for real estate that automates house planning and visualization. We will utilize image processing, AI/ML, and web development technologies to process land images, collect user preferences, match house plans, and provide 2D visualizations while prioritizing security, scalability, and documentation.
